Introduction

This collection consists of approximately 20 cm. of pamphlets and printed records of the Committee on Budget and Stewardship, the Committee on Stewardship and Budget and the Board of Stewardship and Budget, 1944-1973. The minutes, correspondence and other records of these Committees and Board have not yet been transferred from the administrative offices of the Presbyterian Church in Canada.

The records were re-catalogued in 1989 by Elspeth Reid.

This finding aid is listed as FA-STEW.

Historical Sketch

The Budget Committee of the Board of Administration was first appointed in 1930 with the responsibility of generating funding from the congregations to support the work of the Church at the national and international level, and of keeping the members informed of the work and needs of the Church.

In 1934 the Board of Administration recommended that the General Assembly grant authority to the Board to appoint a Budget and Stewardship Committee with a membership made up of representatives of all the "Spending Boards" of the Church. The recommendation accepted by the 1934 Assembly was that the Assembly set up a Budget and Stewardship Committee.

Subsequently, the Budget and Stewardship Committee reported directly to General Assembly in terms which suggest that it was regarded as a Committee of Assembly but it may also have continued to report to the Board of Administration. In 1947 the name of the committee was changed to the Stewardship and Budget Committee by authority of General Assembly. The members of the committee reported that this was done

in the hope of securing a different emphasis and motivation in the raising of money to support the whole work of the Church (Acts & Proceedings 1948, appendix p.183)

The methods and responsibilities of the committee remained unchanged, despite the change of name. The committee also continued to report directly to the General Assembly.

At the 1960 General Assembly which discussed the recommendations of the Special Committee on the Financial Organization and Administrative Structures and Procedures of the Church, the Stewardship and Budget Committee was re-organized into a Board of General Assembly. Also in 1960 the committee, prior to its re-organization, was described as "*appointed by the Board of Administration*" (A & P 1960 p.375). Further doubt on the status of the committee prior to 1960 is provided by the historical statement of the Board of Stewardship and Budget in 1973, which stated that

During the '30s and '40s, Budget promotion was carried out by a committee of the Board of Administration with voluntary leadership...In 1947, Dr. Neil Miller was appointed Field Secretary for Budget promotion and the Stewardship and Budget Committee was given authority to plan its own program, although it continued as a committee of the Board of Administration. (Act & Proceedings 1973 pp.399-400)

Between 1960 and 1973, Stewardship and Budget operated as a Board of General Assembly. In 1973 the functions of the Board were transferred into the new Board of Congregational Life. The Board of Stewardship and Budget expressed considerable reservations about the proposals of the Organization and Planning Committee on the re-structuring of the administration of the Church and stressed the need to keep the work of education on stewardship closely tied to the actual fund-raising methods. Despite these reservations, the Board was dissolved by the 1973 General Assembly and its work transferred to the Board of Congregational Life.

Archival Arrangement

This collection of approximately 20 cm. publications and printed records is arranged by Committee or Board and in each case divided into two series: Visitation Materials and Publications. The Visitation Materials are the printed booklets and other resources used by congregations in the annual visitation to members and adherents to secure pledges for financial contributions to the work of the congregation and the denomination for the following year; these are listed in chronological order. The publications are grouped in files by subject where possible or in general files; these publications are listed in alphabetical order by title.
